sense and simplicity

# Highlights

## 4.1cm(1.6") dot-matrix display

Easy to read, 4.1cm (1.6") dot-matrix display

## 50-name phone book

Always have the phone numbers of your loved ones available: Save up to 50 names in your phonebook.

## Acoustic echo cancellation

No more of those annoying echoes when you are talking on the phone. With our acoustic echo cancellation, you always get a clear, undisturbed connection.

## Advanced sound testing

We test the sound quality of our DECT phones the same way as high-end headphone manufacturers do. Using an advanced ear

simulator, we can accurately re-create the way people actually hear. This helps our acoustic engineers to measure and fine-tune things like frequency response, distortion and overall hearing perception, to create perfect voice reproduction for both handset and handsfree modes.

## Easy setup

Ultimate convenience through easy set up. Simplified installation - Plug & Play product

## ECO+ mode

The ultimate mode to save transmitting power.

## Handset speakerphone

Handsfree mode uses a built-in loud speaker to amplify the voice of the caller, allowing you to

speak and listen during a call without holding the phone to your ear. This is especially useful if you want to share the call with others or simply multitask.

## Less radiation while charging

Up to 95% reduction of emitted radiation in charging mode

## Low power consumption: < 0.6 W

Philips phones are energy efficient and are designed to be respectful to the environment. Now the power consumed in stand-by mode is less than < 0.6 W.

## Philips Green Logo

Philips Green Products can reduce costs, energy consumption and CO2 emissions. How? They offer a significant environmental improvement in one or more of the Philips Green Focal Areas – Energy efficiency, Packaging, Hazardous substances, Weight, Recycling and disposal and Lifetime reliability.
